DELIGHT™

MISSION STATEMENT

UPLIFTING YOUR LIGHTING EXPERIENCE

This brochure is a showcase of products that represent just a sampling of our extensive collection of intelligent luminaire and control solutions designed to help you and your customers solve the toughest of lighting challenges.

Whether lighting a Class A LEED commercial property, a beautiful streetscape, or a harsh environment industrial facility, DELIGHT offers solutions that are designed to improve the environments in which they're placed. With a commitment towards reducing energy usage, enhancing architecture and providing a world-class lighting environment that can improve the human experience, *we're focused on you.*

OUR COMMITMENT
TO EXCELLENCE

WE STRIVE EVERYDAY TO OFFER THE BEST LIGHTING QUALITY AT BEST PRICE

- Aesthetically appealing lighting fixtures and optics
- Lighting design focused on energy efficiency, performance and easy maintenance
- Strong manufacturing partners from around the globe to develop high end products at low cost
- All products are rigorously tested and certified based on industry's highest standards

TRANSFORMING SPACES TO INSPIRE AND IMPROVE LIVING

- High-end customization and innovative control solutions that meet and exceed our customer's expectation
- We walk the extra mile to offer beautiful lighting patterns, colours and adaptive controls
- Our solutions are designed to upgrade actual lighting systems towards a smarter, more attractive and interactive built environment
SELLING IS NOT THE END OF THE STORY, IT'S THE BEGINNING

- Support during the entire life cycle of our products is key to ensure our customers' peace of mind
- Individual or group monitoring of multiple parameters through a web application to ensure uptime, optimal use and performance
- A technology that enables the integration of other IoT devices, sensors and networking protocols leading the way to a more connected and smarter world

SERVICES

DELIGHT's engineering and design team focus is to provide smart lighting solutions to meet and go beyond the highest standards of our customers: property managers, architects, ESCO firms, contractors and municipalities.

We not only care about offering the best lighting innovations and the most advanced control system available on the market we get involved from the beginning of the retrofit process to the end of the commissioning, utilizing latest design tools and methodologies to fill all your needs and more.

LIGHTING PROJECT FEASIBILITY:

Site inventory
Energy savings
Subsidies

LIGHTING PROJECT DESIGN:

Products and control selection
3D simulations and photometric analysis
On-site sample validation
Detailed engineering

PROJECT SUPPORT:

Installation
Commissioning of lightings and controls
Warranty and Support

CUSTOMIZE YOUR LIGHTING PRODUCT;
WE DESIGN LIGHTING CONTROLS.

RESEARCH AND DESIGN

Our engineering team leverages SSL expertise with application knowledge to assure that our products exceed customer expectations.

WORLDWIDE MANUFACTURING PARTNERSHIPS

Having world class manufacturers providing latest technologies and quality testing ensures us to provide cost effective products meeting outstanding reliability and performance surpassing highest certification standards like ETL FCC CE cULus RoHS DLC Premium and more.

HIGH PERFORMANCE POWER SUPPLIES USING *BEST IN CLASS* CONTROL

We integrate LED power supply development and apply differentiated DELIGHT control solutions across our luminaire offerings to improve control and performance.

THERMAL OPTIMIZATION

Using advanced MATERIAL:s and technologies like patented heat sink pads in combination with mechanical and thermal modeling, DELIGHT luminaires are surpassing the boundaries of system illumination output and life expectancy.

LEADING EDGE OPTICS

Our optical designs offer a wide range of high efficiency solutions targeting minimal glare, improved uniformity and optimized control to improve the quality of light.

QUALITY

Our Products are backed by a rigorous product development process, state-of-the-art testing facilities and NVLAP certified labs which validate reliability prior to release. Our extensive manufacturing quality control and burn-in processes support our low defect rates.

LIGHTING CONTROL SYSTEM

EXAGON™

Products with this symbol
are compatible: **EXAGON™**

ONE NETWORK, ONE PLATFORM,
INFINITE POSSIBILITIES.

EXAGON™ can integrate all of
the lighting components of
your property into one single
platform. Features an API to
push its information into third
party software's like BAS.

Empower your lighting systems with
wireless MOTION SENSORs, dimming
and tuning colour, in addition to
remote scheduling and real time
energy monitoring and alerts.

Web based for remote control	PHOTOCELL integration*
Smart phone and tablet friendly*	Motion detector*
Dashboard in real time*	Individual or group controls
Energy and usage reporting (M&V)	Data exportation (.csv, .pdf, .xlsx)
Alarm generation via sms and email	History log
Smart adaptive control strategies	
Dimming scheduling (better lighting LIFESPAN and savings)	
Astronomical clock*	

Any suggestions?
We create custom designs.

KEY FEATURES

- Easy lighting and energy optimization
- Plug & Play, remotely configured
- *WIRELESS:* major installation cost savings
- Multilevel real time* dashboards
- No recurring fees
- No hardware or software to maintain
- Smart adaptive controls
- Energy efficiency Measure and Verification tool
- Solar system integration (OPTIONAL)
- Can indoor / outdoor >IP66
- -40°C to +85°C
- AC / DC versions
- Compatible range 110-347VAC
